

MAESA Design Challenge 2024

**Mid-Atlantic Episcopal School Association
Friday, April 26, 2024
St. Albans School, Washington, D.C.**

GUIDELINES

MAESA invites you to come to St. Alban's to work with peers to tackle a design challenge!

- If you take us up on this offer, you will be grouped with students from other schools to form multi-talented teams with different academic backgrounds and different sets of ideas.
- Each group will be presented with the challenge, provided with materials, and given a limited time to solve the problem.
- There is no one answer! - Your group's flexibility, teamwork, problem-solving, boldness, and engagement will help you create a solution.
- Each group's work will be displayed, giving us an opportunity to recognize the range of possible solutions to challenging problems.
